

COAL TRAINS WERE NEVER QUITE SO THICK

Twenty-three Thousand Tons Coal on Cars in Earlington Yards at One Time.

Business Handled All a Single Track Can be Made to do.

Twelve Extra Locomotives in Service and Officials Working Night and Day.

The railroad boys have been putting the rollers under them the past week, sure enough. They had to. Else there would have been a general burying of the Earlington and Howell yards and the Henderson and St. Louis divisions under an avalanche of coal. At one time during the past week there were 23,000 tons of coal on cars in the Earlington yards, and the regular equipment doing what it could to keep things going. Friday and Saturday there were some twelve additional locomotives brought from other divisions to the Henderson and St. Louis divisions and everything was run double header, with preference given the coal traffic. Trains have been sent double head to Slaughter, where from Earlington and the extra engines then returned here for fresh service. North of Slaughter one engine can pull as much as two this side. From Howell the traffic has had the same hurry-up behind it and conditions of the coal business generally have come to be very good. One night recently a train came here from the north with eight big freight locomotives and sixty-five cars, engines all working, all moving as one train under one set of orders. This extraordinary condition of the coal trade and the manner in which the railroad is now handling it, is attracting much favorable outside comment, and is one of the principal matters of interest in Hopkins and adjoining counties as well as along the line of the road north of here. There have been something like 100 movements in twenty-four hours between Earlington and Madisonville, and that is sending trains over a single track road with some regularity. The single track, in fact, is the only drawback and as much is being put over as a single track will carry. All hands have been working strenuously here. Trainmaster Wile even "worked a trick" himself one night, and "Griff," who until lately was our "Chief Dispatcher," left his work as assistant to the superintendent of terminals at Nashville and came here for a week to work "trick" in the emergency.

Col. Bill Sheridan, in his capacity as transportation expert, has made Earlington headquarters temporarily and has been on the job night and day to see that his road did its part in handling all the business that came to it from the busy coal mines of this immediate field and all Western Kentucky. These are some of the details of the activity that has been and is now on from the superintendent's office down on these two divisions, and with the lively support of the transportation department at Louisville. This activity will continue, with Earlington as the central point in the handling of this big coal traffic, for some time to come. Last night was "Griff's" last at the key. Today he is riding circus train, for the safety of the elephants and the innocent bystander, and then he goes back to Tennessee. The rest, however, and all the crews, will keep 'em going as long as a lump of coal comes down the chute.

AFTER KENTUCKY COAL.
New Line Projected to Include Extension of an Existing Railroad.

A letter to the Manufacturers' Record from Salsersville, Ky., says:

The extension of the Eastern Kentucky Railroad from Webbville, Ky., to the great timber and coal fields in Breathitt county is assured. The officers of the company, who contemplate taking over the Eastern Kentucky road and making this extension of 60 miles, together with their chief engineer, are now going over the survey making some minor changes preparatory to advertising for contracts to grade the road. The road passes through Laurence, Johnson and Magoffin counties, and will tap one of the richest undeveloped coal and timber fields in the United States. Work will begin on the extension in the early summer.

A press report says that the North & South Railroad Co., which is contemplating the construction of a line from Portsmouth, O., via Riverton & Grayson, Ky., to Webbville, proposes to use the Eastern Kentucky Railroad for part of the distance, and will build an extension to Salsersville and Jackson, Ky. It is further reported that C. D. Warren, Capt. F. W. Fletcher, of Toronto, Canada, have gone over the route of the proposed extension in company with Mr. Gibson, an engineer, from Jackson, Ky. The Eastern Kentucky line extends from Riverton, Ky., on the Ohio River, to Webbville, about 36 miles. Its extension as proposed would afford transportation facilities to a region now without railroad.

Northern Pacific Railroad Has Mammoth Poultry Farm

For over a year the Northern Pacific has maintained a poultry farm at Kent, Wash., near Seattle, where on fifty-two acres, 100 white leghorn chickens are producing 150 dozen eggs a day for use on Northern Pacific diners. The railway company will hereafter secure the milk and cream for its commissary department from a herd of 300 thoroughbred milk cows maintained in the same vicinity. In addition to this the company has also planted 400 acres of garden truck at the station Paradise in western Montana, a favored spot for vegetable culture. The products of these three institutions are to be consumed entirely by the dining car department.

The Northern Pacific is the first railway to undertake the production of edibles of its own for its dining cars. It maintains a large bakery in Seattle, and is now building another one in St. Paul, which will turn out all of the breads, pies, cakes and pastries used.

W. F. Sheridan, inspector of transportation, is still in the city, assisting in relieving the heavy traffic which has been on this division for some time.

THIRD REGIMENT K. S. G.

Will Have Complete Band For Encampment

Captain Daniel has called a meeting of all the members of the Third Regiment band for this afternoon at 1:30 o'clock at the armory. This will be a business meeting to find out how many men are going to reenlist, as Captain Daniel is anxious to get all the enlistment blanks signed up and sent into the adjutant's office as soon as possible. Captain Daniel has already secured the signatures of 21 men, and he is desirous of recruiting the band with 35 members. When this is done, the band will begin practicing for the great national encampment to be held at Indianapolis September 1.—Owenston Inquirer.

St. Bernard Stockholders' and Directors' Meetings.

The annual meetings of the stockholders and the directors of the St. Bernard Mining Co. were held in the offices of the company here yesterday. No announcement of business other than the usual routine has been made. Reports of the present condition of the coal business and the immediate outlook are satisfactory and encouraging, with probabilities that the business will continue good during the summer and autumn. Visiting stockholders were Gen. Jas. H. Wilson, Wilmington, Del.; Major M. M. Kimmel, Henderson; John F. Gracy, Clarksville; J. H. Howe, Nashville; R. D. Garrett, Princeton; B. L. Rash, Madisonville; J. V. McEneaney, St. Charles. John B. Atkinson, president, and Geo. C. Atkinson, secretary and treasurer, were re-elected. Dan M. Evans was elected a director to fill vacancy created by the recent death of Michael Cain.

LOUISVILLE TIMES TO GET AVIATION MEET

Under Auspices Of That Paper At Churchill Downs June 18 and 19.

SOCIAL EVENTS.

The La So Con Club.

The La So Cons were beautifully entertained at the home of Misses Maude and May Phillips last Tuesday evening. The first feature of the evening was a display of their knowledge of the different nations. After drawing on their imagination they succeeded in mastering them. Thoughtful Carrie figured very prominently in this feature. Miss Murrell invited herself to give a reading for the benefit of one member present that was strong and to the point. The next was a game of chance and Miss Adeline Toombs was winner of a prize that would be specially appreciated by a La So Con. Delightful refreshments consisting of sherbet and cake were served at the usual hour. The favors were May greetings in the form of little baskets, with garlands of flowers and mials and an appropriate "Dirty" for each La So Con.

The girls regret very much to lose Miss Blanch Sisk, who has recently moved to Dixon, Ky., also Miss Lucy Crenshaw, who is spending the summer in Caney, Kansas.

The East End Card Club.

The club spent a most delightful afternoon with Mrs. Rule on last Friday afternoon. Quite a number of the members were out of town, so the following ladies acted as substitutes: Mesdames Featherston and Randolph and Misses Fells, Atkinson and Moorehead. The house was attractively decorated in roses. Teddy and his bag stick were very much in evidence. Mrs. Daves made the best score. The hostess served a three course luncheon.

Quite a large number of people surprised Mr. J. H. Robinson, at Richmond, Sunday, it being his 69th birthday. His sons, daughters, grandchildren and visitors met with baskets of good things to eat and all enjoyed themselves. J. H. Corbett, of this city, was called down and made several pictures of the crowd.

JNO. X. TAYLOR SELLS OUT.

George King & Sons, of St. Charles, Buy Drug Store.

George King & Sons, of St. Charles, have bought the drug store of Jno. X. Taylor, and will take charge at once. Dr. Gilbert King will have charge of the business. Mr. King and sons have had a drug store at St. Charles for a number of years, and are all practical druggists. We welcome them into our community and bespeak for them success.

Dr. Taylor's plans for the future have not been determined, but he will doubtless leave Earlington soon to the regret of his many friends.

THE HENDERSON BOOSTERS

Visit Earlington on Second Annual Boosting Trip.

The Henderson Boosters visited Earlington last Thursday morning on their second annual boosting trip. They reached Earlington about 11 o'clock, for a 30 minutes visit. The crowd was composed of a number of "good fellows" from our neighborhood city, headed by Hubbell's band and were royally entertained at every stop on their trip. We look forward with pleasure to the coming of the Henderson Boosters again next year.

Glenn H. Curtis and Other Famous Flyers to be There.

Past Weather History Promises Good Condition and Records May be Broken.

The people of Kentucky at last are to have an opportunity to see aeroplanes in flight, with real bird men soaring high in air and executing difficult and interesting evolutions with no other sustaining power than the planes and motors.

The Louisville Times has announced that a great aviation meet is to be held in Louisville on June 18-19 at Churchill Downs, under the auspices of that paper, of which some of the world's most noted aviators will be seen with their wonderful aircraft. Most prominent among these will be Glenn H. Curtis, whose daring achievements both here and abroad have stamped him as a peerless bird man. Such others as Chas. F. Willard, Charles K. Hamilton, Horace F. Wild, "Bud" Mars and C. K. Bates will also be in the contests for the supremacy of the air.

The comparatively recent advancement in the science of aviation has been such as to startle the entire world and the daily accounts of broken records show that there are still great possibilities for unheard of adventures by the "sky pilot." That records may be broken at the Louisville meet is extremely likely from the fact that experts have declared the Churchill Downs course an ideal place for such meets and again for the reason that unusually fortunate dates have been secured.

Weather reports for years past show that the wind velocity for the last half of June is the slowest of any time in the year in Kentucky and of course this is conducive to the easy handling of the great machines.

It is expected that low rates will be secured on all the railroads leading into Louisville for these two days and it is expected that record-breaking crowds will flock to the historic race course, where heretofore the Kentucky thoroughbred has held undisputed sway.

LIFE IMPRISONMENT

For T. J. Hoal, Who Murdered Banker Fawcett of New Albany.

Corydon, Ind., May 7.—A jury here today returned a verdict of guilty of murder in the trial of Thomas J. Hoal, age 18, charged with murdering J. H. Fawcett, cashier of the Merchants' National Bank, at New Albany. Hoal was sentenced to life imprisonment. The jury deliberated eight hours.

Delightful Evening With Miss Bersol. Miss Adeline Pindexter Bersol delighted an audience of appreciative Earlington people at the M. E. Church, South, on last Thursday evening, with a varied program of humorous and pathetic sketches. Her readings were given in a natural and fetching manner that carried her audience from laughter to tears without warning, and led them to look into her interpretations as upon actions in real life. The long number of the program was "Miss Selma Lee", rendered in such manner that her audience was held with the closest interest to the end.

Henry tough, who has been in Texas for his health for the past few months, returned home last week.

Several of our people saw the comet Monday morning. You have to be an early riser to witness this sight.

One of the largest crowds in the opera house in this city attended the moving picture show Friday night.

Don't forget to clean up your back yards and alleys. Summer is coming and filth makes diseases and sickness.

Mrs. Edwin Phillips has had her home re-painted and it adds largely to the appearance of that part of the city.

Don't fail to have your back yards cleaned up and the cans taken out of your alleys before hot weather comes.

A number of our citizens attended the Elks' minstrel at Madisonville Tuesday night and, were well pleased with the show.

Fathers, accompanied by their children, will be admitted to the moving picture show tomorrow night for one-half price, 5 cents.

FOR SALE—One four-room cottage on the corner of Seebree and Farren avenues. For further particulars see Thomas Longstaff, Jr., Earlington, Ky.

D. B. Griffith has sold his fine horse to Dr. E. C. Brandon, who will use it in his practice at Lafayette, in Christian county, where he goes to locate.

W. S. McGary will give away two pairs of handsome suit boxes to the one getting the lucky number at the moving picture show. Get your coupon at the door.

Tonight the United Daughters of Confederacy will give a strawberry supper in the restaurant room, next to the Peoples Bank. Be sure and attend and help these ladies, for a worthy cause.

A large number of the ladies of the Christian church surprised their pastor Saturday night with a donation party. A good many good things to eat were carried to his residence and all enjoyed themselves.

L. L. Goodrich, Ned Barnes, Jas. Maloney, Jewell Webb and Brick Southworth attended the dance at Dawson Springs last Thursday night, given in honor of the Henderson Boosters.

The Band Concert given Monday night at the opera house by the Klub Kentuck band was one of the best of the season. These boys are all good musicians and is one of the best bands in the State. They deserve the patronage of our citizens.

RAILROAD BILL'S PASSED BY HOUSE

Taft's Pet Measure, Sadly Multiplied in Passage, Now Up to the Senate.

ADOPTION WAS EXPECTED

Amendment to Permit Merging Under Certain Conditions Stricken Out by Committee, Was Defeated With Aid of Insurgents.

Washington, May 11.—President Taft's railroad bill, the first big administration measure in its legislative program, was passed by the house. The bill was considerably mutilated in its five weeks before the representatives, but, as carried, retains the section authorizing the creation of a commerce court. The bill now will go to the senate, where it will be sorely attacked by insurgents and Democrats. The final vote in the house was 200 to 120.

The passage of the bill was expected. The vote developed a surprise, however, as to the number of insurgents that voted for it. Representative Mann of Illinois called up the bill and offered an amendment to section 12, which had been stricken out in the committee of the whole, which permitted railroad executives, under certain conditions, to be heard by the president. This has been demanded by President Taft. Representative Fitzgerald of New York objected, and after a parliamentary wrangle, the amendment was held to be in order.

The amendment was defeated by a vote of 169 to 165, the insurgents voting against the amendment. The announcement of the defeat was greeted with loud applause from the Democratic side, a number of Republicans and insurgents' joining. Many of the New England members voted against the amendment, much to the surprise of Representative Mann. Just after the announcement of the vote, Representative Adamson of Georgia, ranking minority member of the interstate commerce commission, moved to reconsider the bill with instructions to strike out the section authorizing the creation of the commerce court and providing for the necessary amendment making the bill conform to such action. By a vote of 157 to 176 the house refused to reconsider the bill with instructions to strike out the clause relating to the commerce court.

This announcement was greeted with great applause on the Republican side. Representative Mann then moved for the yeas and nays on the passage of the bill.

TOO MANY INQUISITORS

Asks Court to Stop Sangamon Investigation Until Cook County Jury Has Completed Its Work.

Springfield, Ill., May 11.—Attorney General William H. Stead took steps to have the investigation of the legislative bribery charges, now being conducted by the Sangamon county grand jury, stopped until the Cook county grand jury has finished its work along the same lines.

A motion asking Judge Robert B. Shirley of the circuit court to further instruct the inquisitorial body to refrain from any investigation into the charges of corruption in the Illinois general assembly was argued this morning.

Final disposition of the motion likely will be the climax in the matter of conducting simultaneous investigations of the charges of legislative debauchery, made some time ago by Representative Charles Allen White.

Conflict of witnesses and confusion and delay to the investigation in Cook county are two of the principal reasons advanced by the attorney general why the inquiry in Sangamon county should be halted.

Recommendation for immunity offered by State Attorney Burke to Michael Link, if she should make a confession of the legislative bribery charges to the Sangamon county grand jury, was refused by Attorney Frank Field, who declares he is Link's lawyer.

Reid declared that State Attorney John E. W. Wayman of Cook county had not granted immunity to Link, and that he would advise his client to stand on his constitutional rights and refuse to testify.

Lincoln Wigwag Tablet Unveiled.

Chicago, May 11.—A bronze tablet placed by the Chicago chapter, Daughters of the American Revolution, on the site of the old "Wigwag" where Abraham Lincoln was nominated for president 50 years ago, was unveiled this afternoon. The exercises took place in the Fine Arts music hall, addresses being made by Governor Deussen, Mayor Buse, Bishop J. W. Hamilton of Boston, La Verne Noyes and others. Miss Frances Dugan, the daughter of the governor, unveiled the tablet.

Lima, Peru, May 11.—Active preparations for a possible war with Ecuador continue. Volunteers are enlisting daily and the land is being prepared by private donations. In this city 24,000 soldiers are quartered.

BALLINGER IS GRILLED

LAWYER GETS ADMISSION OF DISBARMENT FROM SECRETARY.

Shows Existence of Interior Department Rulings Which Must Have Been Violated.

Washington, D. C., May 11.—The existence of rulings in the interior department which Mr. Ballinger must have violated in appearing before the general land office in behalf of the Cunningham coal claimants, after his retirement from that position, was brought out by Attorney Brandels in cross-examining the secretary of interior in the Ballinger-Finchot investigation.

Mr. Brandels got an admission from Mr. Ballinger that he had been barred from appearing before the land office by a similar ruling in another case subsequent to his activity in the Cunningham cases and prior to his becoming secretary of the interior.

Mr. Ballinger said he had not called the ruling to the attention of the president to assist him in reaching a conclusion on the Glavis charges because he did not think there was any law to sustain them.

The committee decided to grant the refusal of Attorney Brandels that Oscar Lawler, assistant attorney general for the interior department, be asked to furnish the original or copies in his possession of the memorandum which he prepared for the president last September, and which Mr. Brandels intimated the president followed in writing his letter vindicting Ballinger and dismissing L. R. Glavis. By unanimous vote the committee refused to ask the president for similar information.

Attorney Brandels had almost concluded the cross-examination of Mr. Ballinger when the hearing was adjourned until Thursday.

MISSION WOMEN CONVENT

Annual Meeting of Their Society of the United Presbyterian Church Opens in St. Louis.

St. Louis, May 11.—The twenty-seventh annual convention of the Women's General Missionary Society of the United Presbyterian church opened here last night with a program of music and addresses. Mrs. Robert W. General welcomed the delegates and response was made by Mrs. J. R. Lowe of Buffalo, N. Y., and Miss R. E. Brown of Cambridge, O., delivered the presidential address, the evening closed with a reception.

The sessions will continue until Friday noon, that of tonight taking the form of a thanksgiving service, the topic being "The World's Redemption."

LINK ADMITS CONFESSION

Denies Reported Denial of Confession of Bribery Charges in Lermer Vote "Jackpot."

Springfield, Ill., May 11.—Representative Michael Link, whose confession before the Cook county grand jury that he had accepted money to vote for United States Senator Lorimer, was denied in a Chicago paper on the authority of a telephone conversation with Link, arrived in Springfield from his home at Mitchell, and his attorney, Frank Reid, who met him here, promptly denied the interview.

"Link has made a confession before the Cook county grand jury," Reid said. "He has been taken down in writing and he has made no effort to deny any part of it. He tells me he was called on the telephone, but could not hear what was said to him and refused to talk. He tells me he does not say what is placed in his mouth."

REV. GOW GETS NEW TRIAL

General Convention of M. E. Church, South, Favors Another Chance for Missourian.

Asheville, N. C., May 11.—A new trial for the Rev. Clyde W. Gow was favored in the report of the committee of appeals of the Methodist Episcopal church, South, in general convention here.

The Reverend Gow is a member of the Missouri conference and was convicted by its conference of immorality. He is also awaiting a decision in his case, which was appealed to the Missouri supreme court in which he was charged with manslaughter in causing the death of Miss Elizabeth Gleason of Elkhart, Mo.

Miss Gleason was a school teacher in Lincoln county, Missouri, and the Reverend Gow was one of her suitors. He was arrested, with a physician of Elkhart, a few days after the girl died.

HEAVY PROPERTY LOSS IN HEAVY ELECTRICAL STORM

Several Barns, Some Stock and Haystacks
Burned in the Nebo County.

Large Tree Struck Within Thirty
Feet of H. S. Corey's House.

Storm Early Last Evening and Brief in
Duration—Heavy Rainfall.

A heavy electrical storm that raged from seven thirty to eight thirty last evening did much damage in the Nebo country and other parts. No damage was done here beyond the striking of a large tree within thirty feet of the residence of H. S. Corey. This tree stood just by his hitching post and was torn to pieces by a thunderbolt which was the most resonating report noticed here. His daughter, Elizabeth Corey, complained of a numbness in one arm just after the stroke and before Mr. Corey knew it had landed so near. There was a window open in the room and she sat not far from it. Nearly one and a quarter inches of rainfall was recorded at the local weather station.

The storm was disastrous. James Givens was the heaviest loser. One of his barns burned with a mare and colt and mule. The building was a good one and his loss was perhaps \$1,500. William Stevens also lost a barn and a considerable amount of feed it contained, the amount being \$1,000 or more. L. W. Schmetzer had two stacks of hay destroyed by another lightning stroke. An unconfirmed report says that a Mrs. Cartwright also lost a barn. Not known whether any insurance was carried on any of this property.

GRAND LEADER

Prepares to Celebrate the Close of its
Second Year's Business in the City
of Earlington.

This enterprising concern, known as the Grand Leader, owned by Morris Kohlman and has as its genial manager one of our best young business men of the city, Jas. E. Maloney, begin their second annual anniversary sale on Saturday, May 14, and closes Saturday, May 21, during which time we can safely ask everyone to patronize this able concern, as they will offer some of the best values to be had anywhere, which fact is substantiated by looking over the page advertisement that appears elsewhere in this issue.

Mr. Kohlman is also the proprietor of that elegant department store in Madisonville that bears the same name as his store at this point. It has been his custom each year, in the past eleven years that he has been located there, to give an annual anniversary sale, which has always been a great success, because he has, at all times, given the people merchandise just as advertised and dealing honestly with all his fellowmen, and the same custom is adhered to at this point. The management assures everyone that will attend this sale the best of treatment and many rare values not to be had elsewhere.

Earlington Circus Goes Get Free Ride,
Detouring Over New Road

A rear end collision near Atkinson this morning caused No. 92 to be detoured over the M., H. & E. and L. H. & St. L. from Madisonville to Henderson, carrying a crowd of circus goers from Earlington, who had en trained here and were on the way before they knew of the wreck. It was thought it might require six or eight hours to clear the line. The circus crowd were given the chance of inspecting the country along the line of new road which they no doubt duly appreciated.

OUR TRAIN DISPATCHERS.

THE BEE desires to express its own pleasure and to voice the satisfaction of the people of Earlinton, as well as all those who are interested in the coal industry of Hopkins and adjoining counties, at the favorable conclusion of the question, recently under discussion in railroad circles, as to the continued location here of the dispatchers office. The dispatchers are to remain at Earlinton, the natural and practical point from which to handle the enormous tonnage of the Henderson division, so large a proportion of which originates right here at Earlinton, and at other nearby towns. When the dispatchers were last located here, after a term of effort to operate the division first from Henderson and later from Evansville, they came to meet an emergency which it was found could not be practically handled from any other point. There was extreme winter weather and enormous demand and production of coal. The Earlinton yard was blocked tight with coal, the sidings on the division were cluttered with coal and other freight and locomotives dead and alive. Traffic seemed frozen to the track and things wouldn't budge. J. G. Metcalfe, then general manager of the Louisville & Nashville, ordered a squad of dispatchers to Earlinton, and himself appeared here at the same time in his private car. The office was cut in and things began to move. The traffic has continued to move in a manner that could not be equaled if handled from any other point. Of course there will be times of stress, as at present, when the coal traffic is extraordinary and there will be need of extra mo-

tive power, as is now the case, to move this coal traffic. An extreme emergency forced the relocation of the dispatchers offices here and each subsequent emergency has proven the wisdom of that action.

Aside from the purely commercial side of the question, is the personal view. Much pleasure is felt and expressed by the people of Earlinton since the uncertainty accompanying rumors of change have been removed. Upon purely personal grounds the loss to this community of the gentlemen who constitute the force of the dispatchers offices, and their families, would be hard to measure and harder to replace. These good people are now and usually have been altogether desirable as citizens, as neighbors, and as friends, and fill much more of a niche in the affairs and affections of our people than is sounded by the click of the hammer or the safe and quick dispatching of trains, many of which are named by other of our citizens. THE BEE desires to emphasize this high esteem in which these citizens are held in this community, and to say again "Glad U-Stay."

BUSINESS CONDITIONS AND OUTLOOK FOR GRAIN CROPS

Upon the question of business conditions and prospects in this country, W. E. Corey, president of the United States Steel Corporation, said the other day:

"There is nothing in the business situation that would warrant pessimism. The underlying conditions of the country in general are sound and with fair average crops, the current year should be one of the most prosperous in history."

This view is taken by the leading bankers and railroad officials and students of commerce generally in the United States. It is clear and generally agreed that we need this year an abundant grain crop and an export business. The crop situation is clearing and the early scares, because of cold waves and lack of moisture in large areas of the country, are fading away like the attenuated tail of a disappearing comet, in the light of improved weather and the recent government crop report. In the mean time, too, some of our big and enterprising financiers have been exporting to France and selling there for good French money, some hundreds millions of railroad bonds and securities, which will enrich by so much the financial resources of this country and leave our own capital for our own industrial, governmental and municipal needs. It is argued that if we cannot export grain and meats and other products because of scarcity and high prices, the exportation of these millions of our securities will do as well. And Mother Nature is coming on now to do her part. We shall have a plenty of crops, and cornbread, with an occasional mutton chop and strip of bacon thrown in. Neither the end of the world nor the end of prosperity is come with the advent of Haley's comet and the 1910 crop year in these United States.

SAT IN VICTORIA'S PRESENCE

But Two Men, Calling on Official Business, Have Been Known to Do So.

Few men were ever allowed to sit in the presence of Queen Victoria—in fact, it is said that probably not more than two ever enjoyed that privilege when they called formally or on official business, and these two were Gladstone and Sir James Alexander Grant, M. P., of Ottawa. During one of his journeys to England he was called to the royal palace to see the queen, who was not in very good health.

The visitor was ushered into the presence of her majesty, who was seated. Unfortunately for the distinguished physician, it was a little difficult for him to hear and understand his hostess, so he went nearer and drew a stool close by her side and seated himself upon it, thus being able to hear her voice perfectly. It was an unconventional act in a royal presence and may have been termed uncereemonious, but the delightful physician apologized later and explained why he had sat down before England's queen.

OUR FEAR OF CONSEQUENCES

Writer Thinks It Deters Us from the Commitment of Good as Well as Bad Acts.

Perhaps the fear of consequences keeps us from a few bad acts, but I am convinced that it also deters us from many good ones. It keeps us from being as disagreeable to people as we should sometimes like to be, but it also prevents us from being as nice to them as we now and then have the impulse to be.

I often think of this as I stand beside the track in the country and watch a train rush past. The engineer is usually leaning out of his window. I wave to him, he waves back, we smile in most friendly fashion, and the train flashes by. I am the better for the greeting, and I hope he is. Once I stood on a bridge and watched a slow freight creep along under me. The train men stood or lay on the tops of the cars, and as they passed they tossed salutations up to me. I caught them all. It was great fun. But afterwards I reflected, what would have happened if that freight had suddenly stopped under the bridge, as freights sometimes do, or if the engine had blown out a cylinder or something, so that the intercourse of the moment threatened to prolong for an hour or two? I fancy all those genial men would have suddenly stiffened into solid automata, and I should have had a pressing engagement elsewhere.—Atlantic

Blackstone's "Commentaries." The first publication, the "Commentaries," was made by Blackstone to protect himself, for some students took notes of his lectures and these notes traveled into mercenary hands. The British museum possesses copies of all the editions of Blackstone with the exception of the third, so here is a chance for possessors of old libraries to search for the lost edition. Blackstone saw eight editions published, and a ninth was in the press at the time of his death. The "Commentaries" and the distinction of having become the subject of a toast. Professor Dicey recommends the study of the "Commentaries" in their original form. We believe, is the method adopted by American lawyers. Law Magazine.

You Can Have a Model Kitchen

as cool and white as a dairy. No smell, no smoke, no heat, no dust. No old-fashioned contrivances. The

New Perfection Oil Cook-stove

is the latest practical, scientific cook-stove. It will cook the most elaborate dinner without heating the kitchen.

Boils, bakes, or roasts better than any range. Ready in a second. Extinguished in a second. Fitted with Cabinet Top, with collapsible

refect, towel rack, and every up-to-date feature imaginable. You want it, because it will cook any dinner and not heat the room. No heat, no smell, no smoke, no coal to bring in, no ashes to carry out. It does away with the drudgery of cooking, and makes it a pleasure. Women with the light touch for pastry especially appreciate it, because they can immediately have a quick fire, simply by turning a handle. No half-hour preparation. It not only is less trouble than coal, but it costs less. Absolutely no smell, no smoke; and it doesn't heat the kitchen.

The nickel finish, with the turquoise blue of the enameled chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Story of a Good Idea.

The history of any good cause may be divided into four stages. First, the world ignores it. Then it ridicules it. Then it tries to crush it. But when the idea triumphs over indifference and ridicule and opposition the world builds monuments to it. This is the history of the Chamberlain's Stomach and Liver Tablets. These are the labor pains in which freedom is born.—Rev. Herbert S. Bigelow.

A Living Skeleton

is the final condition of any child that has worms—if it lives. Think of having something in your stomach that eats all you take as nourishment. Nine-tenths of the babies have worms, may be yours has. Be certain that it has not by giving it White's Cream Vermifuge. It expels all worms and is a tonic for the baby. Price 50 cents per bottle. Sold by St. Bernard Mining Co., Incorporated, drug department.

Russians Lovers of Music.

As patrons of music the Russians are only second to the Germans; they are devotees of the theater, where musical productions are the chief sources of amusement, and the poor peasants manage to cheer the dull hours in his lowly home with an accordion or some other cheap instrument.

Never hesitate about giving Chamberlain's Cough Remedy to children. It contains no opium or other narcotics and can be given with implicit confidence. As a quick cure for coughs and colds in which children are susceptible, it is unsurpassed. Sold by Jno. N. Taylor.

Words.

When I was young, if I thought any body's house was on fire, I said: "Sir, the abode in which you probably passed the delightful years of your youth is in a state of conflagration," and people called me a good writer then; now they say I cannot write at all, because I say: "Sir, your house is on fire."—John Ruskin.

An Ideal Husband

is patient, even with a nagging wife, for he knows she needs help. He may be so nervous and run down in health the trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters—the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used them and become healthy and happy. Try them. Only 50¢. Satisfaction guaranteed by all druggists.

Diplomacy.

A Smile

is a pretty hard thing to accomplish when you're blue, bilious and out of sorts. There is a sure cure for all kinds of stomach and liver complaints—constipation and dyspepsia. Ballard's Herbine is mild, yet absolutely effective. It cures in all cases. Price 50 cents per bottle. Sold by St. Bernard Mining Co., Incorporated, drug department.

Woman's Body Petrified.

Death from gradual petrification, the body slowly hardening for a year until the flesh became as adamant as marble and proof against incisions, was the report made in the case of Mrs. Catherine Barrow, 46 years old, of Rosedale, La., who succumbed in the Charity hospital.

Lazy Man's Tribulations.

"Do lazy man," said Uncle Eben, "tries to save trouble an' merely succeeds in savin' it up so's to git it in a bunch."

Banking Nations.

France like England is a great lending country. It has an enormous accumulation of wealth, and uses it to finance less affluent foreigners, who annually send a large income to French bankers and investors.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it.

Idiosyncrasy.

A lazy man will go up to the lakes for the summer and claim that he has not had time to send even a picture postcard to dear friends at home, and yet he will go out, day after day, and drop a line to friends who love him not.

Practice Has Been Known to Cause Acute Inflammation of the Tongue.

Do the people who jeer at the cautious ones who refuse to lick a postage stamp as "cranks" know that there is a defined disease known as "the postage stamp tongue"?

This is an acute inflammation of the tongue, directly traced to the germs to be found on the gummed side of stamp or envelope.

Other and more serious diseases have been caused by this habit that is so universal and seems so harmless. One throat specialist in a hospital declares that many chronic affections of the throat are found among persons who have as their livelihood the addressing and stamping of envelopes.

Bad skin diseases have been known to follow this habit, and it has even caused pulmonary troubles. It is after all but a habit, and a bad one. It takes no more time and is quite as easy to moisten the stamp with a damp sponge as to lick it.

Where many letters must be stamped and sealed there are good patent inventions by which the sponge is kept moist.

A Man Wants to Die

only when a lazy liver and sluggish bowels cause frightful despondency. But Dr. King's New Life Pills expel poisons from the system; bring hope and courage; cure all Liver, Stomach and Kidney troubles; impart health and vigor to the weak, nervous and ailing. 25¢ at all druggists.

Strange Sight of Ants.

It was proved long ago that ants have the power of seeing the so-called human beings—invisible rays of the ultra-violet portion of the spectrum. They fear the light for their larvae and when alarmed by the color light and one dark to human eyes, but under the actinic ray, the ants unhesitatingly choose the yellow light, showing that to their eyes it is darker than the other, to man invisible.

Chamberlain's Stomach and Liver Tablets will clear the sour stomach, sweeten the breath and create a healthy appetite. They promote the flow of gastric juice, thereby inducing good digestion. Sold by Jno. N. Taylor.

Always Wheat Trouble.

Wheat, corn, breadstuffs, the staff of life—this has always been the agony of humanity whenever it progressed into advanced civilization with dense populations. And along with the breadstuffs, of course, all farm products rose till the people, wherever on earth they were, groaned under the increased cost of living and cried in vain for relief.—Harper's Weekly.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Grand Ala.

Being Natural.

Can you, if you be the gentler sex, walk down the street behind an elegantly gowned woman and restrain the impulse to imitate her poise of head, her carriage and the fascinating ways she possesses? Have you ever been in a crowded room where one woman was the center of attraction and seen someone trying to imitate her? A woman is most charming when she is natural. A woman who is natural, even in her erratic moods, does not give offense. One cannot imitate the ways, manners and style of another without appearing ridiculous. The nicest women we meet are those who do not pose or seek to imitate some one else.

Boys will be Boys.

and are always getting scratches, cuts, sprains, bruises, bumps, burns or scalds. Don't neglect such things—they may result serious if you do Apply Ballard's 25¢ 50¢ and \$1.00. It will relieve the pain and heal the trouble. Price 25¢, 50¢, and \$1.00. Sold by St. Bernard Mining Co., Incorporated, drug department.

Picture of Olden Times.

A most unique sight of old Boston must have been the celebration of the fourth anniversary of a society for "Promoting Industry and Frugality." When 300 young female spinners decently dressed brought their spinning wheels to the common one afternoon and plied their homely craft, make at each wheel, to the accompaniment of music and the delight of many spectators.

A touch of rheumatism, or a twinge of neuralgia, whatever the trouble is, Chamberlain's Liniment drives away the pain at once and cures the complaint quickly. First application gives relief.

Discretion in Speech Needed.

"There's one thing we will have to change if these ladies who wish to vote have their way," said Senator Borghum. "What's that?" "We'll have to quit talking about the wisdom of the plain people."

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock blood purifier builds up sound health—keeps you well.

Pretty Painful.

"What selection is that the orchestra just finished?" "I don't know. Sounds to me like the neuralgia expressed in music."

USE ST. BERNARD COAL

Mined in Hopkins County, Kentucky, the largest coal producing county in the State. This company operates

EIGHT LARGE MINES

and produces about one-sixth of all the coal mined in all Kentucky.

Best Coal for Steam and Domestic Purposes

St. Bernard No. 9 Coal has come to be recognized, through years of satisfactory use, as the standard grade both for steam and domestic purposes, in the large territory reached by our products. Another point in favor of our coal is the fact that we have established

An Unimpeachable Record for Prompt Service the Year Around

Our mines are operated more days in the year than any mines in Kentucky and with an enormous output at command we are able to give the promptest and most satisfactory service.

ST. BERNARD COKE

is also a superior fuel and is extensively used in base burners and heating furnaces for residences or any other building that needs to be heated, and takes the place perfectly of high priced anthracite coal. This coke is extensively used in manufacturing as well and is furnished in various grades.

MINING NOTES.

Hugh Gaffie, of St. Charles, was in the city Saturday.

Thos. N. Black, of Providence, was in the city last week.

Ernest Clator, weighman at the Victoria mines, was in the city Sunday.

M. Hanna left Saturday for Middleshore, where he goes to erect a screen for one of the coal mines near that place.

Circulars are pasted in the city calling attention to the school of

Mine Foremen to open in June at Lexington, Ky. Any one desiring a course on mining can, for a small sum, attend this school this summer.

J. R. Lund, chief blacksmith for the St. Bernard Mining Co. in Nashville, spent Monday in the city. General Manager F. D. Rish carried Mr. Lund over the property of the company and their mines at this place.

Cole Brown, engineer of the Arnold mines, was struck by a piece of iron yesterday while working around the engine and a gash cut in his head. Had he been a few inches closer he would no doubt have been seriously injured.

Mortons Gap News.

News is a little scarce this week. Will try to do better next time.

Our mines are running full blast. There is not a man in this community that is idle who wants to work.

Mr. W. G. Byars, the popular engineer here, wears a broad smile. He is the proud father of a fine girl.

The Odd Fellows here propose to give an Old Fiddlers' Contest May 21. The proceeds will go towards paying for their hall.

The farmers and construction men have been taking advantage of the nice weather the last few days in forwarding their work.

We are confident that the census will show a growth in population in Mortons Gap that will compare favorably with any of the other towns in the county.

Tuesday evening, about 4:30 o'clock, Richard McNary shot and killed Jim Jones on the street. Both are colored. The cause of the shooting is unknown. The McNary negro was arrested and lodged in Madisonville jail.

The committee appointed to see about a new school building report that it is their intention to get a good building for Mortons Gap. We hope to be able to report in the near future that such a building has been put up and is ready for occupancy. We need a good school building more than anything else at this time.

Mr. Ben T. Robinson's new residence is nearing completion. It is a nice house and when completed will be a credit to the town. We understand that there is not a vacant place in town. Many new houses are needed to supply the wants of the people who are coming here. Here is a good opportunity for capitalists who are seeking a good, conservative investment. Renters could be found for 50 more houses than we have at present.

ORDINANCE

The City Council of the City of Earlington, Ky., do ordain as follows:

That it is and shall be unlawful for any person or persons to drink from any spigots or pumps at any mineral or other public wells in the City limits of the City of Earlington, Kentucky, or to remove or destroy any drinking cup, dipper or other drinking vessel attached to said wells or pumps, and any one so offending shall be fined not less than five nor more than twenty-five dollars for each offense.

JAS. R. RASH, Mayor.
PAUL P. PRICE, City Clerk.
Earlington, Ky., May 2nd, 1910.

Wedding Anniversaries.

The different wedding anniversaries are as follows: First, paper; fifth, wooden; tenth, tin; fifteenth, crystal; twentieth, china; twenty-fifth, silver; fiftieth, gold; seventy-fifth, diamond. The sixtieth is usually celebrated as the diamond wedding, as it falls to the lot of very few to live together for three-quarters of a century.

COLORED COLUMN

S. R. DRIVER, EDITOR

Goodrich for photographs.

Mrs. Garfield Osborne is very sick. Thomas Garrett visited Miss Julia Morton last week.

Henry Earls is visiting relatives and friends in East St. Louis this week.

Taylor Bailey, who was hurt in the mines, is able to be out without his crutches.

Rev. V. S. Smith preached two excellent sermons at the Baptist church Sunday.

Our sick are Mrs. John Neely, Mrs. Joe Williamson, William Patton and Mrs. Albert Foster.

Don't forget the rally at Hecla on the fifth Sunday. Let everybody come out and help us.

Haws Taylor mashed his foot very bad in the mines last week, but he is some better at this writing.

Mrs. P. A. Carenagh was a delegate to Dawson. She returned Monday, reporting a very pleasant trip.

Mrs. F. E. Driver made a flying trip to see her husband. She reports him much better and thinks his trip will do him good.

"Old Maids' Convention," presented by 25 people, Tuesday night, May 17, at the A. M. E. Zion church. Don't miss it. Admission 50c. See bills.

Don't forget the rally at Crabtree Sunday. All are invited to be present and help the good cause. Rev. A. Boyd will preach one of his soul-stirring sermons, and on Saturday there will be a big picnic.

The rally of the A. M. E. Zion church will be Sunday, May 15. The city pastors and their congregations are most cordially invited to be with us. Rev. J. R. Irvin, of

Granville, will preach at 11 a. m. and at 8 p. m. Rev. Parker, of Madisonville, will preach at 2 p. m. Each member of the 10th Cavalry Club is asked to be on hand and rally once more.

NO REASON FOR IT.

When Earlington Citizens Show the Certain Way Out

There can be no just reason why any reader of this will continue to suffer the torture of an aching back, the annoyance of urinary disorders, the dangers of diabetes of any kidney ills when relief is so near at hand and the most positive proof given that they can be cured.

Read what an Earlington citizen says:

Mrs. H. C. Smith, Earlington, Ky., says: "I was afflicted with kidney trouble for years. I had severe pains in the small of my back, and whenever I stooped or lifted, the attacks were particularly acute. My back ached at night and when I arose in the morning I was very lame. I became tired easily, felt languid and was frequently troubled by headaches and spells of dizziness. I knew that my kidneys were disordered, as the secretions from these organs were unnatural. Learning of Doan's Kidney Pills, I procured a supply and received relief from the time I began using them. Six contents of two boxes of this remedy cured me. I shall recommend Doan's Kidney Pills at every opportunity.

For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

The Reason.

Abruzzi named the highest Himalayan peak that he climbed "The Pinnacle," because it was so hard to win, or because it was so cold and cheerless, or perhaps, just out of pure cussedness.
